YunSu Lee

+82-10-9691-4119 | sjmjys954646@gmail.com | github.com/sjmjys954646

Education

Chonnam National University — Gwangju, South Korea
Master of Science in Artificial Intelligence Convergence — *Mar. 2025 – Present*

Chonnam National University — Gwangju, South Korea
Bachelor of Engineering in Computer Engineering — *Mar. 2018 – Feb. 2024*

Research Interests

Human-Computer Interaction (HCI), Extended Reality (XR), Human-AI Collaboration, Multi-Agent

Publications

YunSu Lee, et al. **Title withheld for anonymous review**. *Submitted to ACM CHI 2027.*

YunSu Lee[†], Gayun Suh[†], Gun A. Lee, Myungho Lee, and Seungwon Kim. Effects of Gesture Size on Collaborative Experiences in Virtual Reality. *Under Review, Virtual Reality (Springer Nature).*

Sei Kang, **YunSu Lee**, Gun A. Lee, Hyung-Jeong Yang, Soo-Hyung Kim, Ji-eun Shin, and Seungwon Kim. 2026. Exploring the Effects of Support Type and Task Difficulty for Virtual Assistants as Social Companions. In Proceedings of the 2026 CHI Conference on Human Factors in Computing Systems (CHI '26), April 13–17, 2026, Barcelona, Spain. ACM, New York, NY, USA, 21 pages. https://doi.org/10.1145/3772318.3790674

YunSu Lee and Seungwon Kim. G-MAO: Gaze-Grounded Multi-Agent Orchestration for XR Document Understanding. 2026 Seventeenth International Conference on Ubiquitous and Future Networks (ICUFN), Milan, Italy, 2026, pp. 142–144. doi: 10.1109/ICUFN69619.2026.11628549.

YunSu Lee, Sei Kang, and Seungwon Kim. Performance Analysis of GazeRayHand Techniques for Complex Object-Manipulation Tasks in VR Environments. Journal of Digital Contents Society, vol. 26, no. 8, pp. 2237–2247, 2025. https://doi.org/10.9728/dcs.2025.26.8.2237

[†]Equal contribution.

Research Experience

Empathic Computing Laboratory in Korea (ECL) — Mar. 2025 – Present
Graduate Research Assistant, Advisor: Seungwon Kim — *Gwangju, South Korea*

- Contributed to a study investigating the effects of emotional and informational support provided by virtual assistants under varying task difficulty levels.
- Investigated the effects of gesture amplification on collaboration, co-presence, and user perception through VR-based user studies.
- Developed XR applications for a cancer-focused digital smart clinical trial platform (K-HOPE project).
- Developed a multi-user XR experimental environment for a multisensory interaction research project investigating emotional experiences.

Academic Service

Student Volunteer, IEEE VR 2026 — Mar. 2026

Industry Experience

Backend Software Engineer — May. 2024 – Oct. 2024
Hyundai Motor Company — *Ulsan, South Korea*

- Contributed to the planning and design of a computer vision data collection pipeline

Backend Software Engineer Intern — Sep. 2023 – Nov. 2023
Intflow — *Gwangju, South Korea*

- Developed and maintained an image annotation platform for livestock computer vision data collection
- Designed and implemented a prototype safety calendar system for workplace safety management

Awards and Honors

Second Prize, Hyundai Softeer Bootcamp (3rd Cohort) Final Project	Feb. 2024
Honorable Mention, ICPC Asia Seoul Regional Contest	Nov. 2023
Silver Prize, 5th Chonnam National University Programming Contest	Nov. 2023
Silver Prize, 4th Chonnam National University Programming Contest	Jun. 2023
Honorable Mention, ICPC Asia Seoul Regional Contest	Nov. 2022
Encouragement Prize, 3rd Chonnam National University Programming Contest	Nov. 2022

Technical Skills

Programming: C#, Python, Java, C/C++, JavaScript, SQL
XR & Interactive Systems: Unity, OpenXR, Meta XR SDK, XR Interaction Toolkit, Photon
Backend: FastAPI, Spring
Frontend: React, HTML/CSS
Tools: Git, Docker

Languages

Korean: Native
English: TOEFL iBT 90/120 (4.5/6.0; R: 5.5, L: 5.0, W: 4.0, S: 4.0)
